INTRODUCTION

The Statistical Report of Kentucky Public Libraries, Fiscal Year 1997-1998 contains information taken from the Annual Report of Public Libraries. The statistical report is separated into seven sections:

- A summary of library statistics for the most recent year, and comparisons with the three prior years.
- Graphs showing statistical trends in library expenditures, book collections and circulation, librarian certification, and library automation.
- A series of charts listing the top counties in various per capita library measures.
- County by county library statistics in 88 categories. **New items reported this year include *Total In-House Library Use* (#72), *Number of People Using Electronic Resources* (#73), *Patrons Formally Trained to Use Electronic Resources* (#85), and *Library Web Site* (#88).**
- A select group of statistics arranged in order of county population. Counties are now also ranked in the selected statistics section.
- A glossary of terms used.
- The cross-index of county and item number by page number. This provides a quick means to locate a county statistic.

Colorful tables, charts, thematic maps, a list of library special collections, and links to other library statistics sources complement this report. They may be found on the KDLA web page at the following address:
http://www.kdla.net/stats.htm

Additional material will be placed on this web page by June 1, 1999. New content will include a peer comparison of similar sized libraries throughout the nation based upon the latest federal data, and a printable .pdf version of this report.

Please forward your comments or ideas on making the *Statistical Report* a more useful, user-friendly tool. Address E-mail to: jbank@ctr.kdla.state.ky.us or send correspondence to:
